Nikol, Ahmedabad-382350, Gujarat, India

PROFESSIONAL SUMMARY

MSc Artificial Intelligence & Machine Learning student with a BCA background and hands-on experience in Machine Learning and Computer Vision. Currently developing an ongoing research project involving computer vision for agricultural applications. Interested in Machine Learning, Deep Learning, Computer Vision, and Natural Language Processing.

TECHNICAL SKILLS

Programming: Python, SQL

Machine Learning: Machine Learning, Data Preprocessing, Feature Engineering, Model Evaluation

Deep Learning & Computer Vision: Deep Learning, Computer Vision, Image Classification, Object Detection

Natural Language Processing: NLP Fundamentals

Development: Git, GitHub

Databases: MySQL, MongoDB

PROJECTS

AI-Based Animal Detection in Agricultural Harvesting (Dataset**)** | *Ongoing Research Project*

- Developing a computer-vision-based system to detect animals concealed within agricultural crops during harvesting.
- Making synthetic custom dataset inspired from real thermal images.
- Investigating visible and infrared/thermal imagery for animal detection under dense crop conditions.

Bird Species Classification (GitHub**)** | *Machine Learning / Computer Vision*

- Developed a bird-image classification project using a self-collected dataset.
- Performed image preprocessing and dataset preparation for multi-class classification.

E-Shop (Live Demo, GitHub**)** | *Tech Stack: React.js, Node.js, Express.js, MongoDB, Redux*

- Developed a full-featured e-commerce platform using the MERN stack.
- Implemented secure user authentication and authorization using JWT tokens and OTP verification for registration and login.
- Integrated a secure payment gateway using Razorpay API, allowing users to complete transactions safely and efficiently.

UKA-Super Website (GitHub**)** | *Tech Stack: React.js, Django REST Framework, MySQL*

- UKA is a comprehensive platform offering a diverse range of services, including e-commerce, movie ticket booking, and music streaming.
- Developed a responsive web application utilizing Django REST Framework as the backend and React for the front-end.

EDUCATION

MSc Artificial Intelligence & Machine Learning

Gujarat University | 2025–2027 | *Pursuing*

Bachelor of Computer Applications (BCA)

LJ College of Computer Application, Gujarat University | 2021–2024 | **CGPA: 8.25**
